Summary

Full-Stack Web Developer & Marketing Professional with over six years of background in the restaurant industry and customer service. Effective at combining creativity and problem solving to develop user-friendly, sophisticated websites and applications. Constantly learning and known to exemplify a strong work ethic. Adamant about achieving growth and success. Bilingual, fluent in English and Spanish.

Technical Skills

Computer and command line proficient. Coding proficiency in HTML, CSS, Bootstrap, Javascript, and jQuery. Experience using Firebase, MS SQL, Node.Js, RESTful APIs. Deployment and overall management of GIT, Gitlab, Github, and Heroku.

Projects

LIRI — *GitHub*

• LIRI is a Language Interpretation and Recognition Interface designed to interpret user commands through the Terminal or Bash Window and generate requested data.
• Technologies used include Node.js, Javascript, and the node modules axios, colors, crypto, dotenv, fs, inquirer, moment, node-geocoder, node-spotify-api, and weather-js.

Eat-Da-Burger — *GitHub*

• Eat-Da-Burger is a full stack application that utilizes SQL data to log, display, and update user generated burgers using an MVC design pattern.
• Technologies used include Node.js, Javascript, Express, Handlebars, and an ORM system.

Cleveland Browns Trivia — *GitHub*

• A single-player Cleveland Browns themed trivia game that keeps track of your scores, gives you the ability to replay the game, and also displays GIF images based on correct or incorrect answer choices using the GIPHY API. Written in HTML, CSS, and Javascript.

Train Scheduler — *GitHub*

• A web application that utilizes Firebase to host arrival and departure data for trains. Uses Moment.Js to provide up-to-date information about various trains, namely their arrival times and how many minutes remain until the next train arrives at the station.
